2. As you have noted in your memorandum referenced above, we are presently one MI careerist over our authorization if we include [REDACTED] [REDACTED] now on detail to the National Intelligence Emergency Support Office (NIESO). I understand [REDACTED] is doing a commendable job in the NIESO Registry and that NIESO has expressed a desire to retain him. I strongly support his assignment on a permanent basis to the NIESO Registry. If this materializes I request that, as in the past, you recommend to us candidates to be interviewed for the position of Deputy Chief, Executive Registry. Of course, when we gain back an individual to occupy this position (AA 016) we shall immediately identify one of the info control assistants for reassignment. I trust this answers the request contained in your memorandum.
